# About Us

Thank you for trusting Green Harvest Health as your source for CBD. We pride ourselves on providing high quality CBD products that we stridently review so we feel confident in placing "Doctor Recommended" on the label. Unlike any other product company, we provide CBD and business education to support your vision.

We work exclusively with organic United States farmers, licensed processors and guarentee 3rd party testing with every batch of our products.

# Awakening Broad Spectrum CBD Tincture

## *The Doctor's Take*

Awakening was formulated with many of our coaching clients in mind. These individuals were using our tinctures to replace their morning coffee and pre-workout. We reformulated this product to better reflect their needs. No THC, uplifting terpenes and CBG for its extra anti-inflammatory effect.

# Freeze Pain Cream

## *The Doctor's Take*

Our Freeze Pain Cream is our number one seller. I was most impressed when I started providing samples at trade shows. To see patrons use the product on sore and painful areas and come back to the table 10 minutes later elated with how effective they found the cream was reassurance of why we do what we do. We want to help people live better lives!

# Body Butter

## *The Doctor's Take*

The Body Butter is definitely my favorite! It is so incredibly rich and nourishing. More importantly it can improve the quality of your skin. I have witnessed amazing testimonies of skin conditions improving including my own! It can be used as a daily moisturizer or specifically for skin rejuvenation.

# Pet Tincture

## *The Doctor's Take*

We learned with our first pet customers that it was key to have a quality pet tincture. Many pet CBD options are treats. However, many older pets have diabetes or tooth decay and our customers were looking for an option not filled with sugars to help with sleep, anxiety and pain for their loved family member.

Sometimes, the smallest thing takes up the most room in your heart.
